

Molina Clinical Policy

Medically Necessary Services: Policy No. 332

Last Approval: 6/12/2024

Next Review Due By: June 2025

DISCLAIMER

This Molina Clinical Policy (MCP) is intended to facilitate the Utilization Management process. Policies are not a supplementation or recommendation for treatment; Providers are solely responsible for the diagnosis, treatment, and clinical recommendations for the Member. It expresses Molina's determination as to whether certain services or supplies are medically necessary, experimental, investigational, or cosmetic for purposes of determining appropriateness of payment. The conclusion that a particular service or supply is medically necessary does not constitute a representation or warranty that this service or supply is covered (e.g., will be paid for by Molina) for a particular Member. The Member's benefit plan determines coverage – each benefit plan defines which services are covered, which are excluded, and which are subject to dollar caps or other limits. Members and their Providers will need to consult the Member's benefit plan to determine if there are any exclusion(s) or other benefit limitations applicable to this service or supply. If there is a discrepancy between this policy and a Member's plan of benefits, the benefits plan will govern. In addition, coverage may be mandated by applicable legal requirements of a State, the Federal government or CMS for Medicare and Medicaid Members. CMS's Coverage Database can be found on the CMS website. The coverage directive(s) and criteria from an existing National Coverage Determination (NCD) or Local Coverage Determination (LCD) will supersede the contents of this MCP and provide the directive for all Medicare members.¹ References included were accurate at the time of policy approval and publication.

OVERVIEW

This policy defines medically necessary or medical necessity for a requested service or technology (e.g., any treatments, diagnostics, procedures, drugs, vaccines, facilities, equipment, devices, or supplies).

State Health Plan regulations for all Lines of Business (LOBs) and local compliance and/or legal team should be reviewed before applying this policy. Individual health plan definitions in government contracts for all LOBs (including Medicaid, Medicare, and Marketplace) have precedence and supersede the following definition.

This policy is applicable only when there is NO existing definition in the member benefit, health plan contract documents and individual health plan state regulations.

COVERAGE POLICY

Molina Healthcare defines the terms "Medically Necessary or Medical Necessity" as health care services provided to a patient for the purpose of evaluating, diagnosing, or treating an illness, injury, disease, or its symptoms and that are:

1. In accordance with generally accepted standards of medical practice
2. Appropriate for the symptoms, diagnosis, or treatment of the Member's condition, disease, illness, or injury
3. Not primarily for the convenience of the Member or health care provider
4. Not more costly than an alternative service, or site of services, at least as likely to produce equivalent results

APPROVAL HISTORY

6/12/2024	Policy reviewed. No changes to coverage criteria.
6/14/2023	Policy reviewed, updated NCQA definition for "medically necessary" in references.
6/8/2022	Policy revised. Updated Overview and Coverage Policy section (no content changes); added Related Policies section.
6/9/2021	Policy reviewed, no changes.
6/17/2020	Policy reviewed, moved bullet number 2 in red to bullet number 1 and added applicable to all LOBs.
1/17/2019	Changed the definition of Medical Necessity to Molina Healthcare Legal Department's definition.
12/13/2018	New policy.

"Services or supplies for diagnosing, evaluating, treating, or preventing an injury, illness, condition, or disease, based on evidence-based clinical standards of care. Medically necessary services are accepted health care services and supplies provided by health care entities, appropriate to evaluation and treatment of a disease, condition, illness, or injury and consistent with the applicable standard of care. Determination of medical necessity is based on specific criteria."
